

REF: docket number 02-278

I'm OPPOSING the weakening of Indiana's law and feel my privacy is VERY important. Soliciting phone calls ARE an invasion of my privacy, whether it's from a bank, credit card, or whomever I personally didn't give my phone number to. Our Indiana Attorney General, Steve Carter, has worked hard to rid us of this pestilence. I pay for my phone line and I have the right to choose who should or should not call. Before the No-call list was implemented it wasn't nothing to receive 8-10 soliciting phone calls a DAY --any time of the day/night, since it's been implemented I'm hardly ever bothered. This has been nice, but what would be even better is to not receive ANY soliciting phone calls at all. I plan to forward this comment sheet to as many Indiana residences as I can. Be prepared to hear from a lot of angry tax payers.
